

MEMORANDUM

To: Social Enterprise Units and Related Organisations
From: Jessica Tam, Head, HKCSS – HSBC Social Enterprise Business Centre
Subject: Peer-to-peer learning – Visit to 3D Printing One Gallery
Date: 20 October 2016

Recent years, various industries have increasingly adopting 3D printing technology to streamline production and create additional values on products and services. The rapid and low cost prototyping enable new possibilities in the notion of social innovation. Impact Incubator, the one-stop support platform of social innovation and entrepreneurship is going to organize a visit to 3D Printing One set up and operated by Hong Kong Productivity Council, a gallery which showcases a wide range of application across sectors, followed by a peer-to-peer learning session, a group of sector practitioners and experienced 3D printing Consultant are going to exchange ideas and experiences on technology applications. Please refer to details as below:

Industry Knowledge and Case Sharing

- Product design and prototyping;
- Architecture model and cultural conservation;
- Food preparation;
- Exhibition and demonstration;
- Medical, therapy and rehabilitation

Case sharing: apply 3D printing to produce exoskeleton device and prosthetics for rehabilitation use

- Teaching models for education;

Case sharing: apply 3D printing technology on design thinking training

Date 11 November 2016 (Friday)
Time 3:30 p.m. – 5:00 p.m. Admission at 3:15 p.m.
Venue HKPC 3D Printing One (the Gallery)
